COMPANY PROFILE

Compucart Anything Office is an established Information Technology and Office Supplies value added reseller. Compucart was initially founded in 2002 and has traded under that name until the beginning of 2017. 'Anything Office' has always been our ethos, which has been our platform to grow our wide product set. (We could never say 'No' hence our multiple range of products and services). The term 'Anything Office' encompasses exactly what we do, what we can provide and we wanted our name to reflect that.

Compucart Anything Office's knowledge and experience in the IT and Office Supplies sector, enables us to deliver innovative and market leading products and services including:

- Hardware
- Software
- Office Supplies
- Free Spend Audits
- Outsourced Procurement
- Hardware Relocation

As a true one-stop shop, we are dedicated to sourcing the very latest products and services across multiple cost effective brands from a handpicked selection of trusted names meaning that your every need is catered for. We provide a choice of solutions and pricing brackets to best suit your business environment. Compucart Anything Office offers you flexibility between purchasing, rental and finance of IT hardware and software.

Whether it is supplying you with inks and toners or delivering what you need for a complete office refurbishment, our product range has been developed to suit any business, big or small.

Compucart Anything Office is strategically located in the heart of Kelvin, able to logistically service its customer base timeously and efficiently. Included in our customer base is Atio, First Rand, Fluxmans Inc, Group 5, KM Group, Lighting Warehouse, Tourvest and Zenprop.

RENTAL

Whether you're looking for computer hardware, software, audio visual, or apple products we have a huge variety available on the shelf countrywide. Short-term rentals covers your daily or monthly requirements whereas long-term rentals is an effective means of financing an IT purchase.

This service includes full hardware support with a same day or next business day repair or replace policy. Long-term rentals don't require any upfront payments and typically cover a 36 month period.

OUTSOURCED PROCUREMENT

With such a wide variety of products and the uncertainty of how much you really consume, the procurement of office supplies can be a complex challenge. We have a wealth of experience in providing managed procurement services to the corporate and SME business environments. Using our knowledge and experience, we can help you overcome this challenge using our wide range of suppliers, locally and internationally. You can leave your product sourcing to us, we have the time, access to information and resources, to find the right product at the right price to meet your needs.

Choosing Compucart Anything Office will result in less processing, paperwork and record keeping, since you will only be receiving one monthly invoice, allowing you to focus on your core business activities. We're committed to saving you money by consolidating your purchasing, driving down your costs and strengthening our relationship in the long-term.

LOGISTICS

We have a number of delivery options available including courier networks, overnight road freight as well as same day air cargo to any ACSA airport. Our wide logistics network allows us to deliver both locally and nationally with quick turnaround times and accommodates any orders that our customers need urgently. All account customers receive free delivery within a 50km radius of our premises.

WARRANTY MANAGEMENT

Compucart Anything Office will handle your inception and expiry of all factory warranties, call logging and warranty resolution, warranty extension and repair management. We offer you a Worry Free guarantee ensuring that you have a hassle free experience should you encounter any warranty claims. We also offer asset-tagging on all new and existing equipment. This also enables you to have an up to date asset register. This can be done using standardized or customized labels.

Furthermore we have an additional optional add-on warranty known as the Compucart Anything Office – Care. This warranty is valid for 36 months and covers hardware repairs, accidental damage, data recovery and data backup.

FREE SPEND AUDITS

We identify and analyse your IT and office spend. Are you ordering the most cost-effective products? We can guide you through making the most economical choices for your business and help you to save money. We report on quality, brand and price competitiveness and advise you on areas that require attention.

Do you know what your consumables spend is comprised of? At Compucart Anything Office we believe in honesty and transparency and we're confident that with an account with us, you can save money and streamline your office spend.

Expensive supplies for certain equipment could be inflating your consumables spend. We can identify these items and suggest alternatives.

HARDWARE RELOCATON

Are you moving offices or migrating hardware amongst branches, let us manage this process for you. Our skilled workers are able to perform across a multitude of hardware platforms including server, storage, network equipment, notebooks, desktops and monitors using all the necessary protective packaging during the transport process ensuring that the relocation process is safe and secure.

Compucart Anything Office offers pre-move asset register audits, risk assessment and project management which ultimately ensures a safe and secure relocation.

MANAGED IT SERVICES

Compucart Anything Office offers a range of managed IT services and solutions including: managed remote support, cloud infrastructure, hosted exchange, business continuity / backup, IT Service Management as well as network and security solutions.

Using these services, we can offer our clients more stability, less down time and greater security.

ASSET DISPOSAL

We strongly believe that our industry has a unique opportunity to help to preserve the environment for future generations. By educating and encouraging our customers to reduce, reuse and recycle goods, whenever and wherever possible, we can have a positive impact on both the planet and your business.

As a result, we offer services to recycle your computer equipment and printer cartridges in an efficient and legal manner. These services include: value recovery, e-waste disposal, reverse logistics and data destruction while still complying with all environmental standards.
